

Poison (Legacy)

By Molly Cochran

Poison (Legacy) By Molly Cochran

Arthurian legend mixes with modern-day witchcraft in this haunting sequel to *Legacy*, which *Publishers Weekly* said “should please the legions of paranormal fans looking for a sophisticated supernatural thriller.”

After the riveting—and romantic—events of *Legacy*, Katy has won Peter’s heart and is now claiming her place in the magical world. Though half the students at her boarding school come from witching lines, the use of magic is expressly forbidden at Ainsworth, so as to keep the witching world hidden from the blue-blooded preppies, aka Muffies, who also walk the halls.

But the Muffies have at least a notion of magic, because Katy catches them staging a made-up ritual—and to her astonishment, the girls collapse at Katy’s feet and fall into comas. When Katy is blamed, she becomes desperate to clear her name and finds herself battling all odds to harness her growing magical powers in order to save the Muffies and dispel the Darkness once more.

Editorial Review

From School Library Journal

Gr 9 Up-Life has not gotten easier for Katy Ainsworth since readers last met her in *Legacy* (S & S, 2011). Being a witch in a school that also includes non-adepts has its pitfalls, and Katy quickly finds herself in the midst of a controversy when four of those non-magical students fall into comas, apparently at her hands. Unfortunately, this is just the tip of the iceberg, as the real culprit turns out to be Morgan le Fay, fresh from Avalon and just as deceptive as ever. Moving back and forth between eternal Avalon and all-too-present Massachusetts, the novel takes readers on a lengthy ride through teenage angst, love, and bad parent relationships. There are so many threads woven into this plot that they sometimes get lost among the many peripheral scenes and conversations. Still, those who liked the first book will certainly enjoy this one, and fans of Arthurian legend will appreciate this alternative view of the infamous Morgan le Fay.—Sara Saxton, Tuzzy Consortium Library, Barrow, AK (c) Copyright 2011. From [Booklist](#)

Cochran revisits Arthurian legend while continuing the adventures of powerful, young witch Katy Ainsworth. When four popular nonwitch students at her boarding school mysteriously fall ill, Katy is wrongfully accused and ostracized by nearly all the students. One night she discovers a curious new shop in town, whose young proprietress, Morgan, is fascinating. Katy is slow to pick up on Morgan's true identity, but Cochran gives the reader plenty of backstory to set Morgan le Fay, Merlin, and King Arthur in place. There are more plot twists and less clever banter than in the first title (*Legacy*, 2011), but the series isn't over yet—fans will be poised for the next installment. Grades 7-11. --Debbie Carton
