

Classical Geopolitics: A New Analytical Model

By Phil Kelly

Classical Geopolitics: A New Analytical Model By Phil Kelly

Geopolitics is the study of how the projection of power (ideological, cultural, economic, or military) is effected and affected by the geographic and political landscape in which it operates. Despite the real world relevance of geopolitics, a common understanding of what classical geopolitics is and how it works still lies beyond the reach of both researchers and practitioners. In *Classical Geopolitics*, Phil Kelly attempts to build a common theoretical model, incorporating a host of variables that reflect the complexity of the modern geopolitical stage. He then analyzes thirteen pivotal but widely differing historical events stretching from the Peloponnesian War to World War II, from the fall of the British and Soviet empires to the contemporary diplomacy of South America. Through this analysis, Kelly tests the efficacy of his model as a comprehensive geopolitical analytical tool that can be used across a broad spectrum of geopolitical contexts and events.

Editorial Review

Review

"This book makes an important contribution to the current literature on geopolitics. The theoretical approach it takes is both innovative and stimulating, and it displays an impressive synthesis of existing theoretical ideas. A milestone reinterpretation of geopolitical theory." (Geoff Sloan *University of Reading*)

"This is an important work. Many teachers of IR tend to dismiss geopolitics as having been overtaken by technology, but Phil Kelly's analysis shows how mistaken they are. He makes a strong case for the applicability of geopolitical analysis to the study of IR, foreign policy, and strategic analysis. A very worthy contribution to the study of IR and security affairs in general." (Mackubin Owens)

About the Author

Phil Kelly is the Roe R. Cross Distinguished Professor of Political Science at Emporia State University.

Users Review

From reader reviews:

Amber Orłowski:

Hey guys, do you desire to find a new book to study? Maybe the book with the name Classical Geopolitics: A New Analytical Model suitable to you?
