## Interpreting Qualitative Data: Methods for Analyzing Talk, Text and Interaction By David Silverman

In this exciting and major updating of one the most important textbooks for beginning qualitative researchers, David Silverman seeks to match the typical chronology of experience faced by the student-reader. Earlier editions of **Interpreting Qualitative Data** largely sought to provide material for students to answer exam questions, yet the undergraduate encounter with methods training is increasingly assessed by students doing their own research project. In this context, the objective of the **Third Edition** is to offer undergraduates the kind of hands-on training in qualitative research required to guide them through the process.
