From Academic Press

## Computer Vision Technology for Food Quality Evaluation From Academic Press

*Computer Vision Technology for Food Quality Evaluation, Second Edition* continues to be a valuable resource to engineers, researchers, and technologists in research and development, as well as a complete reference to students interested in this rapidly expanding field. This new edition highlights the most recent developments in imaging processing and analysis techniques and methodology, captures cutting-edge developments in computer vision technology, and pinpoints future trends in research and development for food quality and safety evaluation and control. It is a unique reference that provides a deep understanding of the issues of data acquisition and image analysis and offers techniques to solve problems and further develop efficient methods for food quality assessment.

- Thoroughly explains what computer vision technology is, what it can do, and how to apply it for food quality evaluation
- Includes a wide variety of computer vision techniques and applications to evaluate a wide variety of foods
- Describes the pros and cons of different techniques for quality evaluation

### Editorial Review

About the Author

BACK OF BOOK 17 March 2016

Dr. Da-Wen Sun is internationally recognized for his leadership in food engineering research and education and is a highly respected journal editor. He is the recipient of numerous awards and honors including election to the Royal Irish Academy in 2010, selection as a Member of Academia Europaea (The Academy of Europe) in 2011, induction as a Fellow of International Academy of Food Science and Technology in 2012, recipient of the International Association for Food Protection (IAFP) Freezing Research Award in 2013, recipient of the International Association of Engineering and Food (IAEF) Lifetime Achievement Award in 2015, and named as a Thomson Reuters Highly Cited Researcher in 2015.

Dr. Da-Wen Sun is internationally recognized for his leadership in food engineering research and education and a highly respected journal editor. He is the recipient of numerous awards and honors including election to the Royal Irish Academy in 2010, selection as a Member of Academia Europaea (The Academy of Europe) in 2011, induction as a Fellow of International Academy of Food Science and Technology in 2012, the International Association for Food Protection (IAFP) Freezing Research Award in 2013, the International Association of Engineering and Food (IAEF) Lifetime Achievement Award in 2015 and naming as 2015 Thomson Reuters Highly Cited Researcher. His many scholarly works have become standard reference materials for researchers in the areas of computer vision/hyperspectral imaging, computational fluid dynamics modelling, and vacuum cooling. Results of his work have been published in more than 400 peer-reviewed journal papers (Web of Science h-index = 66), among them; thirty papers have been selected by ESI as highly-cited papers, ranking him first in the world in Agricultural Sciences.

### Users Review

**From reader reviews:**

**Raymond Garza:**

Book is written, printed, or created for everything. You can know everything you want by a e-book. Book has a different type. As we know that book is important point to bring us around the world. Close to that you can your reading talent was fluently. A e-book Computer Vision Technology for Food Quality Evaluation will make you to be smarter. You can feel a lot more confidence if you can know about everything. But some of you think which open or reading a book make you bored. It is far from make you fun. Why they might be thought like that? Have you looking for best book or acceptable book with you?

**Novella Tinch:**

Do you have something that you like such as book? The reserve lovers usually prefer to select book like comic, limited story and the biggest one is novel. Now, why not seeking Computer Vision Technology for Food Quality Evaluation that give your entertainment preference will be satisfied by reading this book. Reading practice all over the world can be said as the method for people to know world better then how they

react to the world. It can't be said constantly that reading addiction only for the geeky person but for all of you who wants to always be success person. So , for all of you who want to start reading as your good habit, you are able to pick Computer Vision Technology for Food Quality Evaluation become your current starter.

**Jose Jones:**

The book untitled Computer Vision Technology for Food Quality Evaluation contain a lot of information on it. The writer explains the girl idea with easy means. The language is very simple to implement all the people, so do not necessarily worry, you can easy to read it. The book was written by famous author. The author will take you in the new period of time of literary works. It is possible to read this book because you can keep reading your smart phone, or program, so you can read the book with anywhere and anytime.
