

The Politics of American Feminism: Gender Conflict in Contemporary Society

By James T. Bennett

The Politics of American Feminism: Gender Conflict in Contemporary Society By James T. Bennett

This work assesses, with scholarly scrupulousness and irreverent wit, the ways in which the American male is being blamed, castigated, slandered, emasculated, and just plain harassed for a multitude of crimes and sins because of a single trait: "maleness." From cradle to grave, public policy and the teachings of the groves of the academe are increasingly shaped by an anti-male bias. Chapters examine the ways in which American men and maleness are punished in childhood; in school; in history texts; in language; in the wallet; in religion; and even in recreation.

Although the book's tone is often light, the subject is a serious one that the mainstream media often avoids. *The Politics of American Feminism* debunks dated myths, defends individual liberty against feminist assaults, offers an impious take on the narrow focus of the women's movement, and has as a central premise that not only are men essential to the health of the nation and the survival of the species, but they also have a few salutary qualities as well.
