Review

"How one should approach a study of the world system of Buddhism is a challenge both because of its vast history and its remarkable diversity. This collection by teacher-scholars of the tradition provides just what is needed: a set of forty-four essays of an ideally manageable length for study and classroom use and grouped according to a wide array of categories and topics from which many responsible paths of introduction can easily be constructed."

—Ronnie Littlejohn, Belmont University

"An invaluable resource for anyone studying or teaching Buddhism. The essays are written by superb scholars and discuss every aspect of Buddhist philosophy with sophistication, rigor, and insight."

--Erin McCarthy, St. Lawrence University
