Essentials of Clinical Geriatrics 7/E (LANGE Essentials) By Robert L. Kane, Joseph G. Ouslander, Itamar B. Abrass, Barbara Resnick

An engaging introductory guide to the core topics in geriatric medicine

“This is a valuable reference for those treating geriatric patients, providing well-reasoned expectations. It offers a common-sense approach in a medical system that is oriented to procedure numbers rather than focused on what a rational outcome is. Medicine owes a debt of gratitude to the authors of this work.”
