The Indestructibles By Matthew Phillion

A solar powered girl. A ballerina vigilante. A boy with an alien sharing his brain. A girl with a black hole for her heart. And, a werewolf. This is the next generation of heroes Doc Silence has gathered together, a random collection of amazing kids he hopes to train to make the world a better place.

But Silence isn't the only one collecting super-powered teenagers. In the shadows, a dark organization -- long thought destroyed -- has been building a better monster, combining sentient hurricanes with car crash survivors, crafting designer cyborgs, girls made of fire and boys made of pure rage. What is this mysterious organization's goal? And what does it have to do with Doc's past, and his team's future? Will Doc Silence have enough time to teach them to be heroes before they are called upon to save the world -- and will his team be ready to accept the mantle as their generation's brightest stars?

The Indestructibles introduces Jane, Kate, Billy, Titus, and Emily-- Solar, Dancer, Straylight, Fury, and Entropy -- as they learn how to use their bizarre powers. Along the way, they also discover something about themselves and whether they have what it takes to save the world. Meanwhile, the mercenary Agent Black and the mysterious Rose find themselves pawns of a villainous association who plan on changing the world, starting with the creation of a living, breathing, sentient storm system they're able to bend to their will.

The Indestructibles, coming soon to a neighborhood near you.

Editorial Review

Review

"It's refreshing to have the book's one truly indestructible hero be female...

But there's plenty that you haven't seen before... Phillion ramps up the action often enough to keep things moving...in the end, it's the heroes' well-drawn personalities that make *The Indestructibles* fly... And [he] doesn't give the villains short shrift either...It's the rare young superhero fan who won't find him -- or herself plowing through *The Indestructibles* in as few sittings as possible -- and the rare older fan who won't want to scoop it up as soon as junior finishes."

- Peter Chianca *Gatehouse Media*

"Three cheers for Solar, Dancer, Fury, Straylight, and Entropy: the five brightest stars in the sky...a young woman with Supergirl-like strength and abilities; Kate Miller, who wasn't really a superhero at all; a teenage werewolf; a kid with an alien super symbiote living in his brain; and a girl who could control gravity...In other words, the superteam was filled with a disparate mix of monsters and freaks. Or, we suppose, they could simply be called Dr. Strange and the Furious Five... [an] indefatigably entertaining novel."

- Eric Searleman - Superheronovels.com

From the Author

A follow up interview with Matthew Phillion about the response to his new novel The Indestructibles.

Q: Have you been surprised by the initial positive response to The Indestructibles?

Matthew Phillion: Yes. More than surprised. Amazed. You write a story like this and all you can hope for is for an audience to connect with it somehow, and I'm humbled to see that these characters are resonating with the readers. I take every comment to heart. Every response is important to me.

Q: What's your take on the interest in a sequel already? Will there be one? When?

MP: I'm thrilled that readers and even some reviewers have asked about a sequel. I joked during the writing process that I'd be happy telling stories about these characters for the rest of my life, but I wasn't kidding at all -- there are so many stories to share about these heroes. I'd had the plot for a second book already roughed out even while I was working on the first, and I'm hoping we'll be able to have a sequel available by the Fall. Fingers crossed! We'll be taking all of the Indestructibles to new and interesting places.

Q: Can you give us a hint about what we might see in the sequel?

MP: No spoilers! (laughs) But I can say that we saw hints of other lab-created supervillains in the first book who might still be at large. Also, it's hard to imagine the authorities would be thrilled that a bunch of teenagers were running around saving the world unsupervised, so they'll probably be facing challenges from both ally and enemy alike. And all five team members have some growing to do as they figure out who and what they really are.

Q: Many of your readers have a favorite member of the Indestructibles who they've related to most. Do you

have a favorite?

MP: Oh no, that question will get me in trouble! Although, if I had to choose, I'd say I relate most to Doc, because I, like Doc, feel very protective over the others. They're my responsibility in much the same way they are his. I have to admit something to you though -- when I've had too much coffee, sometimes I find myself talking exactly like Emily.

Q: Is there anything else that you'd like to add?

Yes. I'm heartened that boys and girls -- men and women, seemed to have responded positively to the story and these characters. Because, as I mentioned previously, I wanted every character to not be defined and, more importantly perhaps, to not be limited -- by their gender or any other essential characteristic. I hope it's a book about people, not about categories.

And, I'd also like to thank everyone once again for their kind support and enthusiastic responses.

Users Review

From reader reviews:

Curtis Russell:

What do you ponder on book? It is just for students since they're still students or it for all people in the world, what best subject for that? Simply you can be answered for that issue above. Every person has several personality and hobby for each and every other. Don't to be compelled someone or something that they don't want do that. You must know how great in addition to important the book The Indestructibles. All type of book could you see on many methods. You can look for the internet resources or other social media.

James Hose:
