Molecular Diagnostics: Fundamentals, Methods and Clinical Applications

By Lela Buckingham PhD MB DLM(ASCP), Maribeth L. Flaws PhD MT(ASCP)SM

The first text on molecular diagnostics specifically designed to educate students in clinical laboratory science programs! The authors have combined their knowledge and experience as educators to bring you the book you and your students have been asking for.

This exceptional new resource introduces the fundamentals of nucleic acid biochemistry to students without previous molecular training, while also presenting advanced concepts for students learning at a higher level. And, your students will be better prepared for the future with discussions of general diagnostic procedures that emphasize the continuing emergence of new diagnostic technologies.
