

Wireless Networking Absolute Beginner's Guide

By Michael Miller

Wireless Networking Absolute Beginner's Guide By Michael Miller

Make the most of your wireless network...*without* becoming a technical expert! This book is the fastest way to connect all your wireless devices, get great performance with everything from streaming media to printing, stay safe and secure, and do more with Wi-Fi than you ever thought possible! Even if you've never set up or run a network before, this book will show you how to do what you want, one *incredibly* clear and easy step at a time. Wireless networking has never, *ever* been this simple!

Who knew how simple wireless networking could be?

This is *today's* best beginner's guide to creating, using, troubleshooting, and doing more with your wireless network...simple, practical instructions for doing everything you really want to do, at home or in your business! Here's a small sample of what you'll learn:

- Buy the right equipment without overspending
- Reliably connect Windows PCs, Macs, iPads, Android tablets, game consoles, Blu-ray players, smartphones, and more
- Get great performance from all your networked devices
- Smoothly stream media without clogging your entire network
- Store music and movies so you can play them anywhere in your home
- Keep neighbors and snoopers out of your network
- Share the files you want to share—and keep everything else private
- Automatically back up your data across the network
- Print from anywhere in the house—or from anywhere on Earth
- Extend your network to work reliably in larger homes or offices
- Set up a “guest network” for visiting friends and family
- View streaming videos and other web content on your living room TV
- Control your networked devices with your smartphone or tablet
- Connect to Wi-Fi hotspots and get online in your car
- Find and log onto hotspots, both public and hidden
- Quickly troubleshoot common wireless network problems

Michael Miller is the world's #1 author of beginning computer books. He has written more than 100 best-selling books over the past two decades, earning an international reputation for his friendly and easy-to-read style, practical real-

world advice, technical accuracy, and exceptional ability to demystify complex topics. His books for Que include *Computer Basics Absolute Beginner's Guide*; *Facebook for Grown-Ups*; *My Pinterest*; *Ultimate Digital Music Guide*; *Speed It Up! A Non-Technical Guide for Speeding Up Slow PCs*, and *Googlepedia: The Ultimate Google Resource*.

Editorial Review

Users Review

From reader reviews:

Eleonora Plunkett:

Inside other case, little persons like to read book Wireless Networking Absolute Beginner's Guide. You can choose the best book if you want reading a book. So long as we know about how is important a book Wireless Networking Absolute Beginner's Guide. You can add expertise and of course you can around the world by a book. Absolutely right, due to the fact from book you can recognize everything! From your country until eventually foreign or abroad you will find yourself known. About simple matter until wonderful thing you can know that. In this era, we could open a book or perhaps searching by internet unit. It is called e-book. You can use it when you feel fed up to go to the library. Let's examine.

Virginia Cherry:

In this 21st century, people become competitive in most way. By being competitive now, people have do something to make these survives, being in the middle of the particular crowded place and notice by means of surrounding. One thing that at times many people have underestimated the item for a while is reading. Sure, by reading a book your ability to survive improve then having chance to stand up than other is high. To suit your needs who want to start reading any book, we give you that Wireless Networking Absolute Beginner's Guide book as starter and daily reading reserve. Why, because this book is greater than just a book.

Shane McKeel:

Information is provisions for anyone to get better life, information nowadays can get by anyone with everywhere. The information can be a know-how or any news even restricted. What people must be consider when those information which is inside the former life are hard to be find than now is taking seriously which one is appropriate to believe or which one the resource are convinced. If you find the unstable resource then you get it as your main information you will have huge disadvantage for you. All those possibilities will not happen in you if you take Wireless Networking Absolute Beginner's Guide as your daily resource information.

Pamela Rhodes:

As a scholar exactly feel bored to be able to reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just tiny students that has reading's heart and soul or real their interest. They just do what the professor want, like asked to the library. They go to presently there but nothing reading really. Any students feel that studying is not important, boring as well as can't see

colorful images on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Wireless Networking Absolute Beginner's Guide can make you truly feel more interested to read.
