Case Study Research: Design and Methods (Applied Social Research Methods) By Robert K. Yin

Providing a complete portal to the world of case study research, the **Fourth Edition** of Robert K. Yin's bestselling text **Case Study Research** offers comprehensive coverage of the design and use of the case study method as a valid research tool. This thoroughly revised text now covers more than 50 case studies (approximately 25% new), gives fresh attention to quantitative analyses, discusses more fully the use of mixed methods research designs, and includes new methodological insights. The book's coverage of case study research and how it is applied in practice gives readers access to exemplary case studies drawn from a wide variety of academic and applied fields.

Key Features of the **Fourth Edition**

- Highlights each specific research feature through 44 boxed vignettes that feature previously published case studies
- Provides methodological insights to show the similarities between case studies and other social science methods
- Suggests a three-stage approach to help readers define the initial questions they will consider in their own case study research
- Covers new material on human subjects protection, the role of Institutional Review Boards, and the interplay between obtaining IRB approval and the final development of the case study protocol and conduct of a pilot case
- Includes an overall graphic of the entire case study research process at the beginning of the book, then highlights the steps in the process through graphics that appear at the outset of all the chapters that follow
- Offers in-text learning aids including "tips" that pose key questions and answers at the beginning of each chapter, practical exercises, endnotes, and a new cross-referencing table

Case Study Research, Fourth Edition is ideal for courses in departments of Education, Business and Management, Nursing and Public Health, Public Administration, Anthropology, Sociology, and Political Science.

Editorial Review

Review

Yin is an excellent writer for introductory students in Qualitative Case Study. (Alan L. Webb)

About the Author

Robert K. Yin is President of COSMOS Corporation, an applied research and social science firm. Over the years, COSMOS has successfully completed hundreds of projects for federal agencies, state and local agencies, and private foundations, and most of this book's applications come from these projects.

Outside of COSMOS, Dr. Yin has assisted numerous other research groups, helping to train their field teams or to design research studies. A recent engagement has been with the United Nations Development Programme, and another assignment has been to provide guidance to assist doctoral students at the University of Copenhagen. Currently, Dr. Yin holds the position of distinguished scholar-in-residence at American University's School of International Service (Washington, DC). Earlier, he served as Visiting Scholar at the U.S. Government Accountability Office's research methodology division.

Dr. Yin has authored nearly 100 journal articles and books. His first book on the case study method, *Case Study Research: Design and Methods* (2014) is in its fifth edition. He has edited two case study anthologies (Yin, 2004; and 2005) and has most recently authored a new text on qualitative research methods (Yin, 2011). Dr. Yin received his B.A. in history from Harvard College (magna cum laude) and his Ph.D. in brain and cognitive sciences from M.I.T.

Users Review

From reader reviews:

Clarence Riley:

Book is to be different for each and every grade. Book for children till adult are different content. To be sure that book is very important for people. The book Case Study Research: Design and Methods (Applied Social Research Methods) was making you to know about other expertise and of course you can take more information. It is extremely advantages for you. The publication Case Study Research: Design and Methods (Applied Social Research Methods) is not only giving you considerably more new information but also being your friend when you feel bored. You can spend your own spend time to read your guide. Try to make relationship together with the book Case Study Research: Design and Methods (Applied Social Research Methods). You never really feel lose out for everything in case you read some books.

Robert Prather:

Nowadays reading books become more than want or need but also work as a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The information you get based on what kind of

guide you read, if you want have more knowledge just go with education and learning books but if you want feel happy read one having theme for entertaining including comic or novel. Often the Case Study Research: Design and Methods (Applied Social Research Methods) is kind of e-book which is giving the reader unstable experience.

Annette Carroll:

As a college student exactly feel bored to be able to reading. If their teacher asked them to go to the library or to make summary for some e-book, they are complained. Just little students that has reading's soul or real their pastime. They just do what the trainer want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that reading through is not important, boring as well as can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Case Study Research: Design and Methods (Applied Social Research Methods) can make you sense more interested to read.

David Conover:

What is your hobby? Have you heard that question when you got college students? We believe that that issue was given by teacher with their students. Many kinds of hobby, Everybody has different hobby. So you know that little person including reading or as looking at become their hobby. You must know that reading is very important in addition to book as to be the thing. Book is important thing to increase you knowledge, except your current teacher or lecturer. You get good news or update with regards to something by book. Different categories of books that can you choose to adopt be your object. One of them is this Case Study Research: Design and Methods (Applied Social Research Methods).
