Let Love Heal (The Love Series Book 3) By Melissa Collins

Perfection. We all strive for it, but what happens when the desire to be perfect consumes you? What happens when the need to bury your mistakes blinds you?

Melanie Crane has always been the perfect daughter, friend, student - she's been perfect at everything, in fact. But when she lets her insecurities, the ones that she keeps hidden from everyone, get the best of her, she falters in her pursuit of perfection. Melanie crumples under the pressure and buries her pain. Numbled by sadness and guilt, she is determined never to let anyone find out how broken she really is.

Bryan Mahoney may appear to have everything in order. He's charming, witty and completely swoon-worthy. In short, Bryan has life all figured out, but appearances can be deceiving. When the landscape of Bryan's family changes in an instant, he's left to pick up the pieces.

Not all bruises leave a mark. Now, weary and afraid, Melanie and Bryan must find a way to let love heal their broken and jaded hearts.

Editorial Review

Review

It is a great experience when you are reading a book and it feels as if you are reliving your own life story. Melly Belly character brought to the surface the same things and feelings that I myself try to keep hidden. I was drawn in from the first chapter and met every doubt, revelation, struggle, and growth with understanding and that "been there" attitude. **-Reading by the Book**

This was such a beautifully told story about self-worth and value. Melanie was super smart and witty but she just didn't see how beautiful she really was. This is one of the hardest lessons in life to learn. If you can't love yourself, can anyone else love you? Melissa Collins takes us on an amazing journey of love and self-discovery and throws in some steam to make this a fabulous book in the Love series! It tackles one of the biggest issues facing people as they grow into adults and learn who they really are and Melissa did it flawlessly! Amazing story. Amazing characters. Amazing love. **- The Boyfriend Bookmark**

This is, by far, the best book in the Love Series...I could not put this book down. I read it in two, not too long, sittings! I really wanted to pull an all-nighter with this book, but my body wouldn't allow me to! I am pretty sure I dreamed about this book in-between starting it and finishing it! **-Up All Night Book Addict**

About the Author

New York Times and USA Today bestselling author Melissa Collins has always been a book worm. Studying Literature in college ensured that her nose was always stuck in a book. She followed her passion for reading to the most logical career choice: English teacher. Her hope was to share her passion for

reading and the escapism of books to her students. Having spent more than a decade in front of a classroom, she can easily say that it's been a dream.

Her passion for writing didn't start until more recently. When she was home on maternity leave in early 2012, she read her first romance novel and her head filled with the passion, angst and laughter of the characters who she read about it. It wasn't long before characters of her own took shape in her mind. Their lives took over Melissa's brain and The Love Series was born.
