

Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice)

By American Society of Civil Engineers

Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice) By American Society of Civil Engineers

Planning and Design Guidelines for Small Craft Harbors, third edition, provides new, state-of-the-art guidelines for the planning, design, and development of small craft harbors. Much has changed in marina development and operation since the previous edition, and new challenges confront those charged with providing access to oceans, lakes, and rivers by recreational and commercial users. Construction and maintenance of marinas and waterfront facilities have not kept pace with demand. Products are available now that are more predictable and cost-effective. And, increasingly, available waterfront sites are often blighted or contaminated. This Manual will assist those involved with waterfront development to produce facilities that are convenient, attractive, and safe, as well as meeting aesthetic, social, and cultural goals. Topics include: planning, environmental, and financial considerations; harbor entrance, breakwater, and basin design; inner harbor structures; and land-based support facilities. Civil engineers, architects, planners, marine contractors, real estate developers, and marina owners, both public and private, will refer frequently to the guidelines presented in this manual.

Editorial Review

Users Review

From reader reviews:

Jennie Miller:

The actual book Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice) will bring one to the new experience of reading a new book. The author style to spell out the idea is very unique. In the event you try to find new book to see, this book very acceptable to you. The book Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice) is much recommended to you to see. You can also get the e-book through the official web site, so you can quicker to read the book.

John Beaulieu:

Spent a free the perfect time to be fun activity to complete! A lot of people spent their free time with their family, or all their friends. Usually they doing activity like watching television, gonna beach, or picnic from the park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? May be reading a book might be option to fill your free time/ holiday. The first thing you ask may be what kinds of guide that you should read. If you want to consider look for book, may be the guide untitled Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice) can be fine book to read. May be it can be best activity to you.

Jenny Davis:

This Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice) is great publication for you because the content which can be full of information for you who also always deal with world and also have to make decision every minute. This particular book reveal it information accurately using great manage word or we can point out no rambling sentences in it. So if you are read the idea hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but tricky core information with attractive delivering sentences. Having Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice) in your hand like having the world in your arm, info in it is not ridiculous one. We can say that no reserve that offer you world inside ten or fifteen second right but this publication already do that. So , this is certainly good reading book. Hello Mr. and Mrs. hectic do you still doubt that will?

Trina Durham:

Is it a person who having spare time and then spend it whole day by simply watching television programs or just lying down on the bed? Do you need something totally new? This Planning and Design Guidelines for Small Craft Harbors (MOP 50) (Asce Manual and Reports on Engineering Practice) can be the response, oh how comes? The new book you know. You are consequently out of date, spending your time by reading in this completely new era is common not a geek activity. So what these ebooks have than the others?
