Values Across Cultures and Times By Vesna Lopicic

Values Across Cultures and Times is a collection of sixteen articles examining the concept of values understood in its broadest sense as the need of the modern man to examine, redefine, and reconstruct previous theories, histories, moralities, social relationships, forms of language and language use. In times of great change, preserving traditional values seems to be particularly difficult, and the authors of these essays respond to the challenge, and approach the notion of changing values from the perspectives of literary studies and linguistics. The book opens with an introductory overview, followed by sixteen articles divided into three sections. The book is aimed at a broad academic audience, while the popular style of the articles also makes the volume appealing to a wider audience interested in different aspects of values. The authors of the articles come from Serbia, Macedonia, Bulgaria, Romania, and the United States.
