### 12 Real Life Reincarnation Stories in The News: Global Evidence of Reincarnation and Past Lives (Help Me Angels Book 5)

Reincarnation is Among Our Most Ancient Beliefs, and Is Resurging in Modern Times.

Reincarnation is not one of those ancient ideas that has lost its cache of credibility as the world progressed into the modern age. Dozens of old superstitions have been dropped along the way, but not reincarnation. If anything, the belief in reincarnation has gained strength as science has advanced. That's because the scientific method can be applied to the study of actual cases of reincarnation, and the results are often tantalizing, and more often than not, support the reality of reincarnation.

The ways in which science and modern technology have added credibility to reincarnation are almost too numerous to mention, but just consider the invention of photography some one hundred and fifty years ago. For the first time, we have been able to compare pictures of the deceased to the reincarnated living - with results that are often stunning. There are dozens of well-documented cases on file now which include photographs of people who look more like twins, or brothers and sisters, even though they are separated by a century of time, or even race and culture. Even a man who 'comes back' as a female may still bear a remarkable resemblance!

Science has helped in other ways as well, and mostly in the realm of theory. Today, thanks to quantum mechanics and quantum theory, we have a better understanding of time, and just how the universe is formed at its most fundamental level. Physicists now routinely talk about a state of 'timelessness' that exists beyond and outside our normal perception of things - and you'll see in these pages how all of this helps support the case that reincarnation is not only happening, but possible in terms of the nature of the universe itself.

But you don't necessarily have to understand all the deeper scientific or medical theories about how reincarnation works to appreciate the amazing case studies you will read about in this book. Every story is a very human story - about people living their lives, dying in peaceful or tragic ways - only to seemingly live again with memories of past lives still intact.

Each case of reincarnation investigation is like a voyage that changes lives and expands the perspective of those involved, and those of us who marvel at their cases.

You don't even have to be a believer to enjoy and be amazed at the cases of reincarnation you will read about here. In fact, the sceptic may enjoy this even more! That's because the confounding and tantalizing details of reincarnational cases are so strange, and so difficult to explain away, that those who consider themselves diehard rational, empirical sceptics, and even atheists, will be challenged to find alternative theories about what these people report through direct experience.

It is our hope that the sceptic, the believer and those sitting on the fence alike will be challenged to think outside the box.

These 15 Reincarnation Stories have been researched and reported in the following publications:

1. The New York Times - Dr Paul Debell & Past Life Regression Therapy
2. The Connecticut Post - Jeffrey Keene & The Civil War General
3. The Helsinki Times - Samuel Helander & His Uncle Pertti
4. Indian Newspapers - The Amazing Case of Uttara Huddar & Xenoglossy
5. The Pittsburg Tribune Review and The Daily Courier - James Leininger & The Fallen World War II Pilot
6. Journal: Spiegel der Parapsychologie - Life Between Life
7. Various American Publications - Split Reincarnation; One Soul, Many Lives
8. British newspaper, The Gazette - The British Carl Edon & German Heinrich Richter
9. Various German Publications - Suicide and Reincarnation
10. International Chess Journals - The Marcoczy (Deceased) v Korchnoi (Alive) Chess Match 1985
11. The Washington Post - Dolores Jay; Suggested Reincarnation?
12. Scientific and Medical Communities - The Spirit Guides
