## Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data By Kyran Dale

Learn how to turn raw data into rich, interactive web visualizations with the powerful combination of Python and JavaScript. With this hands-on guide, author Kyran Dale teaches you how build a basic dataviz toolchain with best-of-breed Python and JavaScript libraries—including Scrapy, Matplotlib, Pandas, Flask, and D3—for crafting engaging, browser-based visualizations.

As a working example, throughout the book Dale walks you through transforming Wikipedia’s table-based list of Nobel Prize winners into an interactive visualization. You’ll examine steps along the entire toolchain, from scraping, cleaning, exploring, and delivering data to building the visualization with JavaScript’s D3 library. If you’re ready to create your own web-based data visualizations—and know either Python or JavaScript— this is the book for you.

- Learn how to manipulate data with Python
- Understand the commonalities between Python and JavaScript
- Extract information from websites by using Python’s web-scraping tools, BeautifulSoup and Scrapy
- Clean and explore data with Python’s Pandas, Matplotlib, and Numpy libraries
- Serve data and create RESTful web APIs with Python’s Flask framework
- Create engaging, interactive web visualizations with JavaScript’s D3 library

### **Editorial Review**

#### About the Author

Kyran Dale is a jobbing programmer, ex research-scientist, recreational hacker, independent researcher, occasional entrepreneur, cross-country runner and improving jazz pianist. During 15 odd years as a research scientist he hacked a lot of code, learned a lot of libraries and settled on some favourite tools. These days he finds Python, Javascript and a little C++ goes a long way to solving most problems out there. He specializes in fast-prototyping and feasibility studies, with an algorithmic bent but is happy to just build cool things.

### **Users Review**

#### **From reader reviews:**

##### **Leslie Marcellus:**

Book is to be different for each and every grade. Book for children until adult are different content. As we know that book is very important for us. The book Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data was making you to know about other information and of course you can take more information. It is very advantages for you. The reserve Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data is not only giving you considerably more new information but also to be your friend when you sense bored. You can spend your own personal spend time to read your e-book. Try to make relationship together with the book Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data. You never sense lose out for everything should you read some books.

##### **Joseph Wilson:**

This book untitled Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data to be one of several books in which best seller in this year, honestly, that is because when you read this guide you can get a lot of benefit upon it. You will easily to buy this book in the book store or you can order it by way of online. The publisher with this book sells the e-book too. It makes you quicker to read this book, because you can read this book in your Touch screen phone. So there is no reason to your account to past this reserve from your list.

##### **Lauren Robinson:**

The particular book Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data will bring you to the new experience of reading any book. The author style to spell out the idea is very unique. In case you try to find new book to learn, this book very suitable to you. The book Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data is much recommended to you to see. You can also get the e-book from the official web site, so you can more easily to

read the book.

**Stella Keith:**

Reading can called head hangout, why? Because while you are reading a book particularly book entitled Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data your mind will drift away trough every dimension, wandering in each aspect that maybe not known for but surely might be your mind friends. Imaging every single word written in a book then become one form conclusion and explanation that maybe you never get just before. The Data Visualization with Python and JavaScript: Scrape, Clean, Explore & Transform Your Data giving you an additional experience more than blown away your head but also giving you useful facts for your better life with this era. So now let us demonstrate the relaxing pattern at this point is your body and mind will be pleased when you are finished reading through it, like winning a game. Do you want to try this extraordinary investing spare time activity?
