“The highly objective autobiography of one of the real giants of the aerospace world, . . . written so clearly that the average person cannot only understand it but gets caught up in it.”—*Aerospace Historian*

“Fast-paced, very readable, and technically interesting. It covers a fifty-year span of American aviation without being a history book. . . What makes this book so valuable is Mr. Johnson's exposition of the mind-set to find the simplest, least expensive fix to each technological problem. . . . Recommended for all harried technologists and defense planners, it will encourage one's faith that a better way is possible.”—H. Lawrence Elman, *National Defense*
