Editorial Review

From the Author

To achieve a high MCAT score you need to develop skills to properly apply the knowledge you have and quickly choose the correct answer. You must solve numerous MCAT practice questions that represent the style and content of the MCAT 2017. **Understanding key science concepts and how to apply them is more valuable on the MCAT 2017 than memorizing formulas and terms** (using MCAT flash cards) which is unlikely to significantly increase your score.

This MCAT 2017 prep book is different from the majority of other MCAT books. While other books either only superficially review science topics or provide MCAT practice questions with brief explanations, this book presents the science material in an **MCAT practice tests format and provides detailed explanations to each question**. These explanations discuss why the answer is correct and - more importantly - why another answer that may have seemed correct is the wrong choice. **The explanations include the foundations and details of important MCAT science topics needed to answer related questions on the MCAT**. By reading these explanations carefully and understanding how they apply to solving the question, you will learn important concepts and the relationships between them. This will prepare you for actual MCAT test and will **significantly improve your score**.

This book is designed to reflect the content of the new MCAT. It contains **4 Biological & Biochemical Foundations of Living Systems and 4 Chemical & Physical Foundations of Biological Systems MCAT practice tests**. Each test contains 59 passage-based and independent questions with the appropriate combination of biology, biochemistry, organic chemistry, general chemistry and physics topics tested on the MCAT.

All the content of our publications is prepared by our editors who possess extensive credentials, are educated in top colleges and universities and have been admitted to medical school with stellar MCAT scores. Our editors are experts on teaching, preparing students for the MCAT and have coached thousands of premeds on admission strategies.

Used books may have outdated content. We make content updates regularly based on customers' comments, editorial input and latest test changes. The most current version is only available directly from Amazon (*sold & shipped by Amazon*), Barnes & Noble and Sterling Test Prep web store.

Users Review

From reader reviews:

David Colon:

The book Sterling Test Prep MCAT Practice Tests: Chemical & Physical + Biological & Biochemical Foundations can give more knowledge and information about everything you want. Why then must we leave the best thing like a book Sterling Test Prep MCAT Practice Tests: Chemical & Physical + Biological & Biochemical Foundations? Several of you have a different opinion about e-book. But one aim that book can give many info for us. It is absolutely right. Right now, try to closer using your book. Knowledge or details that you take for that, it is possible to give for each other; you can share all of these. Book Sterling Test Prep MCAT Practice Tests: Chemical & Physical + Biological & Biochemical Foundations has simple shape however, you know: it has great and massive function for you. You can seem the enormous world by available and read a publication. So it is very wonderful.

Jessica Henriquez:

In this 21st century, people become competitive in every single way. By being competitive now, people have to do something to make these individuals survive, being in the middle of often the crowded place and notice by simply surrounding. One thing that sometimes many people have underestimated it for a while is reading. Sure, by reading a reserve your ability to survive increase then having chance to stand up than other is high. For yourself who want to start reading a new book, we give you this kind of Sterling Test Prep MCAT Practice Tests: Chemical & Physical + Biological & Biochemical Foundations book as beginning and daily reading publication. Why, because this book is usually more than just a book.

Lisa Saxon:

The reserve with title Sterling Test Prep MCAT Practice Tests: Chemical & Physical + Biological & Biochemical Foundations possesses a lot of information that you can understand it. You can get a lot of profit after read this book. That book exist new understanding the information that exist in this e-book represented the condition of the world today. That is important to you to understand how the improvement of the world. That book will bring you inside new era of the global growth. You can read the e-book in your smart phone, so you can read it anywhere you want.

Douglas Brownlee:

Reading a book for being new life style in this year; every people loves to go through a book. When you read a book you can get a lots of benefit. When you read publications, you can improve your knowledge, simply because book has a lot of information upon it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your review, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this kind of us novel, comics, as well as soon. The Sterling Test Prep MCAT Practice Tests: Chemical & Physical + Biological & Biochemical Foundations offer you a new experience in looking at a book.
